RESIDENTIAL & FARM - NON-COMMERCIAL SERVICE

APPLICABILITY

Domestic Use

Applicable to a single-family permanent primary residential dwelling unit and associated building incidental to the residence (where such building is not used for commercial purposes and the residential and corresponding load does not exceed for~~fif~~ty (450) kW in demand), with service supplied through one (1) meter. If a demand of forty (40) kW is exceeded twice (2) during a twelve (12) month period, service will be changed to the applicable rate necessary to accommodate the load. The forty (40) kW demand limit and related rate change requirement do not apply when the meter serves only residential load. A residence in which four (4) sleeping rooms or more are rented or are available for rent or lease is considered non-domestic, and the General Service Small schedule will apply. This schedule is not applicable for residential use where such use is primarily for commercial, professional, or any other gainful enterprise other than ordinary farm use, or for intermittent, seasonal, or short-term occupancy.

Ordinary Farm Use

Available for ordinary farm use when all use is supplied through the domestic use meter. Ordinary farm use is defined as normal farming activities and production for one's own use and does not include production or processing for commercial purposes.

TYPE OF SERVICE

Single or multi-phase, sixty (60) cycles, at available secondary voltages.
