POWER COST ADJUSTMENT AND PROPERTY TAX RIDER

The energy usage is subject to the Power Cost Adjustment and Property Tax Rider clauses.

CONDITIONS OF SERVICE

1. If there is no central authority with which to contract (such as in the case of villages), service agreements will be made only with responsible individuals or organizations having credit ratings satisfactory to the Cooperative.
2. The Cooperative will furnish the needed facilities up to the point of delivery. The Consumer shall furnish, own, and maintain facilities, transformation, and utilization equipment on its side of the point of delivery, including an oil switch of suitable specifications and ability to coordinate with the Cooperative's sectionalizing devices and to de-energize its transformers when they are not in use.
3. The point of delivery shall be stated in the service agreement.
4. In the case of three-phase service, the Consumer shall so divide its load among the phases as to effect a close balance at the point of delivery.
5. In view of the adverse demand load factor characteristics of this class of Consumer, the Cooperative will be obligated to supply service at the rates herein only when it has reserve capacity in its facilities, up to and at the location where service is desired, over and above the requirements of its regular Consumers. The Cooperative, on thirty (30) days written notice to the Consumer, may discontinue service under this schedule when, in its judgment, such reserve capacity in no longer available.
6. Where it is necessary to make unusual extensions or to reinforce distribution lines to provide service such that, in the judgment of the Cooperative, the revenue to be derived from or the duration of the prospective business is not sufficient under the above stated minimum to warrant the investment, the Cooperative may require an adequate minimum bill calculated upon reasonable considerations before undertaking to supply the service.

TERMS OF PAYMENT

Payment shall be in accordance with the Rules and Regulations of the Cooperative as they currently exist or may be amended from time to time.
